2. How super works.

Superannuation (Super) might seem complex but it's basically money put aside for your retirement.

To start with, it's made up of compulsory contributions from your employer called the Superannuation Guarantee (SG). Further, the Federal Government provides certain tax savings for Super. Contributions and investment earnings may be taxed at a lower rate than the tax on your salary – and super is generally tax-free on withdrawal after you turn 60.

Under Choice of Fund legislation, most workers are eligible to choose what fund their super contributions are paid into.

Choosing the right fund now, can make a lifetime of difference later.

Contributions.

For many people, SG contributions alone may not be enough to cover the cost of retirement. To encourage you to maximise your retirement savings, the Federal Government provides tax savings and other incentives to boost your super. Some easy ways to add to your super include:

- Personal contributions from your after-tax salary (non-concessional contributions)
- Concessional contributions, including salary sacrifice or personal contributions for which you have claimed a tax deduction
- Government co-contributions, and/or the low income super tax offset (LISTO), if you are eligible
- Spouses can split their before-tax contributions with each other
- One spouse can make contributions for the other spouse, and if the receiving spouse is a low income earner the contributing spouse could receive a tax offset.
- Downsizer contributions from the proceeds of selling your home subject to your age and other eligibility criteria.

Limits on contributions.

There are various limits (or caps) that apply to contributions. Further information can be found in Section 7. How super is taxed.

Accessing your super.

Generally, you cannot withdraw your super until you reach your preservation age (the minimum age set by law when you can access your super). Please see the ATO website for more information ato.gov.au/Individuals/Super/Withdrawing-and-using-your-super/

i You should read the important information about How super works before making a decision. Go to hostplus.com.au/pds-exec. The material relating to How super works may change between the time when you read this Statement and the day when you acquire the product.

The material relating to Benefits of investing with Hostplus Executive may change between the time when you read this Statement and the day when you acquire the product.

4. Risks of super.

It's important to know that all investments (including super) involve some risk.

To offer members different levels of risk and potential return, Hostplus invests in a range of asset classes such as cash, fixed interest, infrastructure, property and equity – which can be further defined as 'defensive' or 'growth'. The mix of growth and defensive asset classes determines the likely net investment return and risk of a negative return for each investment option.

For example, investment options with potentially the highest returns (such as equity), may also have the highest risk of loss over a shorter period of time.

When considering the risks to your investment in Hostplus, you should understand that:

- The value of your investments can go up and down.
- The returns you receive on your investments will vary – they can be positive or negative and previous returns are not indicative of future returns.
- Returns are not guaranteed and negative returns will result in a reduction in your account balance.
- The amount of your future superannuation savings, including contributions and investments, may not be enough to provide adequately for your retirement.

Other significant risks to your investment are the impact of inflation, interest rates, exchange rates, liquidity, derivatives and market failure. There are also legal risks such as changes to superannuation law and changes to insurance terms and conditions.

The level of risk appropriate for you will depend on your age, how long you are investing for, any other investments you may have, and how comfortable you are receiving negative returns in some years.

i You should read the important information about the Risks of super before making a decision. Go to hostplus.com.au/pds-exec. The material relating to the Risks of super may change between the time when you read this Statement and the day when you acquire the product.

5. How we invest your money.

Hostplus offers a wide range of investment options for you to choose from, each with a different level of risk and return.

If you don't make an investment choice, your contributions will be automatically invested in the Balanced investment option, our default option, described opposite. As the MySuper authorised option, it suits people who plan to have their super invested for the long-term (five years or longer).

Hostplus may add new investment options, remove or change an option (for example, its strategic asset allocation or objectives). If any of these changes are significant, we'll write to you or update you via hostplus.com.au

If you are a Hostplus employee or Director, you must read the information regarding the **Investment Switch Restrictions** in Section 5 of the Member Guide available at hostplus.com.au/pds-exec.

!!! When making your investment choice you must consider the potential risk and return of an investment option and whether it suits your risk profile and timeframe, ie. how much time you have until your retirement.

Choose from our wide range of investment options.

6. Fees and costs.

!!! Consumer advisory warning: DID YOU KNOW?
Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.
For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

i TO FIND OUT MORE:
 If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

Please note: This Consumer Advisory Warning is prescribed by law. However, the statement concerning the possibility of negotiating fees is not applicable to Hostplus. Hostplus may change fees and costs at any time and without your consent. You will receive at least 30 days' notice before any increase to fees deducted directly from your account.

Fees and costs.

This section provides summary information about the main fees and costs for the Hostplus Balanced option. The information in the fees and costs summary can be used to compare costs between different superannuation products. Fees and costs can be paid directly from a member's account or deducted from investment returns.

Other fees may apply. You should read all information about fees and costs because it is important to understand their impact on your investment. This information, including definitions for each fee type, is set out at hostplus.com.au/pds-exec

Any amount charged in excess of that cap must be refunded. 2. Investment fees and costs includes an amount up to 0.43% for performance fees. The calculation basis for this amount is set out under "Additional explanation of fees and costs" in the Member Guide. 3. These fees and costs are based on actual figures and estimates from the previous financial year, except in the case of performance fees which are generally averaged over 5 financial years. The fees and costs payable in respect of each future year may be higher or lower. 7. How super is taxed.

There are various tax levels that apply at different times on payments into your account (contributions), investment earnings and on the withdrawal of super benefits. Tax is deducted from your super account and paid to the ATO. There are limits on how much you can contribute to super.

Type of contribution and limits.

Concessional contributions, such as employer, salary sacrifice and personal tax-deductible contributions:

15% on amounts up to \$27,500 a year cap. Amounts over the cap will be taxed at your marginal tax rate.¹ If your total super balance is less than \$500,000 at the end of the previous financial year, you can carry forward unused concessional amounts for up to 5 years.

If your total income (including your concessional contributions) is over \$250,000, you will pay an additional tax of 15% (ie. 30% tax) on taxable contributions exceeding the \$250,000 threshold.

Non-concessional contributions from your salary (after tax) such as personal and spouse contributions:

0% on amounts up to \$110,000. Amounts over \$110,000 will be subject to tax at the top marginal rate.¹ If under age 75 you may bring forward your non-concessional contribution of up to three times the yearly non-concessional contributions cap in a single year depending on your total super balance. Your total superannuation balance is the total value of your accumulation and retirement phase interests (including rollover amounts not yet included in those interests) across all of your superannuation accounts.

1. The 2% Medicare levy is also payable.

 If you exceed the concessional or after-tax contributions cap, you will pay additional tax to the ATO.

Tax on withdrawals 1 July 2022 to 30 June 2023.

Component	Tax if you are under 60
Tax-free	No tax payable.
Taxable – taxed element¹	Below preservation age, taxed at 20% ¹ . Preservation age - 59 years, the first \$230,000 ² is tax-free and the balance is taxed at 15%

1. Plus Medicare Levy. 2. The \$230,000 lifetime limit is the total of all the taxable payments you receive or are paid before you reach age 60 (even if received in different financial years).

Tax deductions.

If you're eligible, you may be able to claim your personal contributions during the year as a tax deduction. This will turn any after-tax contributions into before-tax contributions, which may be useful to self-employed people or employees whose employer doesn't allow salary sacrifice.

Tax on investment earnings.

Investment earnings are taxed at up to 15%. This tax is deducted from the earnings that apply to your super, before the earnings are added to your account.

Tax File Numbers (TFNs).

 It is in your interest to supply your TFN when you join. Generally, higher tax is payable on your contributions and withdrawals if you don't supply your TFN – and Hostplus Executive will not be able to accept your personal contributions. You will also be ineligible for the Government co-contribution incentive.

 You should read the important information about How super is taxed before making a decision. Go to hostplus.com.au/pds-exec. The material relating to How super is taxed may change between the time when you read this Statement and the day when you acquire the product.

8. Insurance in your super.

Please note: If you are a Northern Territory Government (NTG) member under a former Statewide Super arrangement you do not receive automatic insurance cover. You should refer to the information about your individual employer arrangement sent to you by Hostplus.

Hostplus insurance cover is provided by MetLife Insurance Limited (MetLife) ABN 75 004 274 882, AFSL 238096.

The information in this section is a brief summary only. Full information about eligibility, the cancellation of insurance cover, any conditions or exclusions in relation to insurance cover and information about the level, type, actual cost (or ranges of costs) of optional insurance cover or any other matter in relation to insurance cover is provided at hostplus.com.au/pds-exec. That information should be read before deciding whether the insurance is appropriate.

Automatic (Default) Death and Total & Permanent Disability (TPD) insurance.

Generally, as a Hostplus member, if you've joined through your participating employer you receive automatic, unitised Death and TPD insurance cover at the standard occupation classification.

With automatic insurance, the number of units you receive depends on your age next birthday. The number of units then determines the level and cost of cover.

If your employer has special insurance arrangements with Hostplus on behalf of its employees, you'll be advised of additional eligibility conditions for automatic insurance cover, and how these arrangements may differ to that disclosed in this PDS by your employer and/or in your welcome letter. This may include fixed or salary-linked Death and TPD cover or automatic Income Protection cover (also known as Salary Continuance).

Cover commencement.

Your automatic insurance will generally commence when you first meet the following criteria, provided you are eligible, including any specific eligibility conditions as part of your employer's insurance arrangements and your account is not inactive*:

- You are aged at least 25 years; and
- Your account in Hostplus first has a balance of at least \$6,000.

Your automatic insurance will cease if your account later becomes inactive* unless you elect for it to continue.

Prior to meeting the above criteria, you can also opt-in to have default insurance cover, subject to terms, conditions and eligibility requirements. If you opt-in, your default insurance will commence from the date we receive your opt-in request or the date you become an eligible person, whichever is later. Please note, if you opt-in prior to us receiving a contribution into your account, your cover will not commence until the first contribution is received and you become a Hostplus member (provided you meet all other eligibility requirements).

In certain circumstances (for example, if the premiums for your insurance cover is paid by your employer), you will not be required to satisfy the above criteria for your automatic insurance to commence and your cover will start once your employer makes a contribution to your super account.

For full details of the terms, conditions and eligibility requirements for cover, refer to hostplus.com.au/pds-exec

*A member's account is considered inactive if we have not received a contribution or rollover into that account for a continuous period of 16 months and you have not made a written request or positive election to always maintain all your cover even where your account becomes inactive.

Some members will be eligible to pay a lower premium based on their occupation and associated occupational rating set by the insurer. If you meet occupational rating definitions as outlined at hostplus.com.au/pds-exec, you may be entitled to reduced premium rates. You can apply for these via your Member Online account or by calling us.

Unless you cancel your automatic insurance, the premiums will continue to be deducted from your Hostplus account, as long as there are sufficient funds to pay the premiums and eligibility is still met. If, for whatever reason, more than one account is opened for you at Hostplus, you are only eligible for one insurance benefit and duplicate insurance premiums will be refunded.

Death and TPD insurance: Unitised cover table.

The table below shows the default number of units, level of cover per unit and amount of default cover you will receive at each age next birthday.

Hostplus also offers eligible members:

- Terminal illness benefits as part of your death benefits.
- Specific life events cover where changes in your life let you boost your cover.
- The option of transferring your insurance from another super fund or retail insurance policy.
- The ability to apply for the waiver of premiums for up to 12 months while taking employer-approved parental leave.

Restrictions and exclusions that may apply to your automatic insurance cover.

If you are eligible for automatic Death and TPD cover or automatic Income Protection cover and you do not meet the requirements for Full Cover (eg. you are not Actively Employed), your automatic insurance cover may be Restricted Cover which will not cover Pre-existing Conditions for 24 consecutive months. A Pre-existing Condition is an illness, injury, condition or related symptom that you were aware of, or should have been aware of, within the 2 years prior to your cover commencing.

Your Restricted Cover will be replaced with Full Cover after 24 months provided you are Actively Employed for the last 30 consecutive days of the 24 month period. If you are not Actively Employed for the entire 30 day period, Restricted Cover will continue until you have been Actively Employed for 30 consecutive days.

For full terms and conditions, including when cover may be restricted cover, please refer to hostplus.com.au/pds-exec

The premium rates shown in the PDS are the standard premium rates that apply to Hostplus Executive members. A Plan Rating Factor may apply in addition to the occupational rating factor in certain employer insurance arrangements; this is a multiple that takes into account the industry in which you are involved, the previous claims history of employees, and the different categories of employees within your employer's formula arrangement. The Plan Rating Factor adjusts the standard premium rates that apply to members within the employer arrangement. Further information will be contained in your Hostplus Executive welcome letter.
